and will shortly resume immediate control of his great newspaper. Something of this sort has been under-

and have not from the first supposed nece life. that he would long be content to rub up against princes and that sort of thing in a foreign land. 'There isn't half the public service in it that there is in conducting well a great newspaper, and that is ing well a great newspaper, and that is the sort of newspaper the Philadelphia All the same it is agreeable to observe

Branch member which suggests some The adjudiction of this question covers ties of the two branches.

may have a check on the other; and if absurd. cated in our local history, it is now.

who is not persuaded that the salaries and good neighbors. quate in the main.

the conservative influence, and it has of individuals. accomplished the result without unfairness or any just grounds of affront to the

relation to the tariff question. One can find in these same newspapers any amount of argument by which it is sought to prove that a protective tariff is the parent of all the ills that afflict labor in the United States.

The London Times is very much of a Free Trader itself, and, when it is not writing for foreign consumption, may be trusted to give a reasonably good account of such news events in its own country as it takes notice of at all. The Times of

Feb. 24th contained the following: Feb. 24th contained the following.
The past twelve months have been signalized not only by strikes of a very grave charterer, but by attempts to erganize unstilled labor for fighting purposes, to confederate the organized trades, skilled and the killed, and to bring pressure a bear on employes with intent to stamp out all non-union workers. We appreciate gravity of the crists etc.

Here we have in condensed form,

agrees with all the information we have on the subject, the industrial history of Great Britain for the past year. It is a record of strikes, lock-outs and heated

votes will get in their work still. One the INTELLIGENCER will be glad to point him to a copy of the Times containing the article. It will be no trouble, but, on the contrary, a great pleasure.

What Came of Proxies.

Mr. George Westinghouse, Jr., of Pitts burgh, has been the head of several corporations using the mechanical appliances with which his name is associated. Among these companies was the Union WEST VIRGINIA will be glad to fur- just chosen for itself a new head by

brought a question from a Second
Branch member which suggests some
misapprehension as to the scope and duties of the two branches.

The adjudiction of this question covers
the whole ground; for it opens the whole
question from beginning to end. We
set up certain claims as growing out of
in readily with the salary increasing proure purchase from Russia. This Great
We, the undersigned, have known F.

J. Obeney for the last fifteen years, and
believe him perfectly honorable in all
business transactions and financially
able to carry out any obligation made by
their firm.
West & Tauax, Wholesale Druggists, Toleid. O. misapprehension as to the scope and du- the whole ground; for it opens the whole our purchase from Russia. This Great Britain denies, and she shows an indisposition to face them bluntly. We assaled branche of Council, if one is to obstruct legislation? Under our form of government the legislative function is divided in two paris, that one function is divided in two parts, that one Britain pretends to regard this claim as

this theory has never before been vindi- If the arbitration shall determine what of Wheeling who is not entirely willing infinite trouble and, while it has not that every public servant shall be fairly threatened war, has somewhat impaired compensated for the service he renders. the friendly relations between two peo-There is probably no thoughtful citizen ples who should always be good friends

authorized by Council are already ade- As the two countries, great enough to fight if fighting were the best thing to Careful investigation might show a do, have shown the world that they city servant, here and there, who earns were great enough to arbitrate when more than he gets, but the same inquiry both were inflamed by then recent would doubtless show more city servants events, so now they are about to prove who get more than they earn.

In this matter the First Branch has quality of common sense which is the proved to be, as it ought always to be, basis of the real greatness of nations as

Second Branch.

Another Foresiste Reminder.

The inquiring sindent looks in vain in the columns of American Free Trade newspapers for any truths bearing on labor troubles in Great Britain, and their relation to the teriff question. One can parably the best and the meats popular, Irregular poison, Hostetter's stomach Bitters is incomparably the best and the meats popular, Irregular poison, Hostetter's stomach Bitters is incomparably the best and the meats popular. Irregular parably the best and the most popular. Irregularities of the stomach, liver and bowels encour-age malaria; but these are speedly rectified by age makins, but these are specific rectains and so-cretion are speisted by its use, and a vigorous as well as regular condition of the system pro-moted by it. Constitution and physique are thus defended against the innovás of maisria by this matchless preventive, which is also a cer-tain and thorough remedy in the worst cases of intermittent and remittent fevers.

FARM AND GARDEN.

The Ohio Experiment station has been examining a subject of great in-

Smut spores may grow in manure and liquids in the barnyard for an indefinite

period.

The smut enters the corn when it is very young, penetrating the soft tissues of the lowest joint and the root of the mall plant. Smut does not pass from plant to plan in the corn field

Ontward applications to the affected orn plant will do no good, for the ungus is inside, and no application will each it. reach it.

Great care should be taken to keep the ground from becoming filled with

By a rotation of crops the increase o mut may be prevented.

Domestic animals should not be allowed to eat the smut in the field, for hey will distribute the spores in their

roppings. Care should be taken not to contamiiste yard manure with the spores.

Infected stalks should be removed rom the field before the smutballs open,

from the field before the simutation open, and then carefully destroyed.

Plant none but seed which is perfectly free from smut spores.

The spores adhering to seed corn may be killed by immersion in a strong solution of blue vitriol.

A correspondent of the Rural Canadian recently had a thousand bushels of to-matoes left after his market, and tried the control of the contr the experiment of feeding them to his cows with such an increased milk flow that he planted tomatoes for the purpose of feeding them to the cows.

of feeding them to the cows.

A Lansing (Mich.) man writes: "I keep about sixty fowls, whose product last year sold for enough to nearly pay the family grocery bill, pesides what chickens and eggs were used in the family. I have comfortable quarters for them, with yard. Have learned from my own experience that coal sakes spread in the hennery will keep off all itee. The lime and cinders are devoured by the hens and the ashes make one of the best dust-baths to kill vermin. I have used nothing else for three years and have seen no signs of insects of any kind.

burg, Pennsylvania. In Pennsylvania and void.

At this distance it looks as though Mr. Collecting this money is not well received by the people. At Charleston a more complaisant view is taken. What makes the difference?

The Russian Mission.

It is believed in Washington that Mr. Charles Emory Smith, editor of the Philadelphia Press and Minister to Russia, has resigned his diplomatic post worthy information as to the prevalence of tuberculosis in herds of milch cow and to direct attention to the need of legislation for the protection of those

who buy milk. French gardeners are now obtaining the same results as the Japanese in the production of dwarf trees, which are in great demand, their fruit being just as perfect as if grown on a full-sized tree. Their methods are kept as secret as those used in Japan, where one sees trees two een treated in such a manner as to stun the sort of newspaper the Philadelphia Press is.

All the same it is agreeable to observe that the same it is agreeable to observe that the two countries have about come that the observe that the two countries have about come that the observe that the two countries have about come that the observe that the two countries have about come that the observe that the two countries have about come that their growth and to prevent them from their growth and to prevent their growth and to prevent them from their growth and to prevent their growth and to prevent them from their growth and their growth and to prevent them from their grow

A Timely Suggestion.

The difference of opinion between the two branches of Council concerning the proposed increased along the salary line, brought a question from a Second limits?"

Among these is, "What are now the rights of the United States as to the fur scal fisheries in the waters of the Bering Sca outside of the ordinary territorial limits?"

How's This We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by taking Hall's Catarrh Cure. F. J. Chensy & Co., Props., Toledo, O. We, the undersigned, have known F. J. Chensy for the last fifteen years, and We offer One Hundred Dollars Re-

may have a check on the other; and if this theory has never before been vindicated in our local history, it is now.

There is probably not a good citizen of Wheeling who is not entirely willing that every public servant shall be fairly compensated for the service he renders. There is probably no thoughtful citizen the friendly relations between two peoples who should always be good friends.

Britain prefends to regard this claim as absurd.

If the arbitration shall determine what act on a new principle, regulating the liver, stomach and bowels through the reveal are now our rights we shall have reached the end of a question which has made infinite trouble and, while it has not threatened war, has somewhat impaired the friendly relations between two peoples who should always be good friends.
